Rotary Denver Southeast

What is Rotary?

Rotary Club of Denver Southeast

Supports over 30 local and global service projects in one year. We implement projects ourselves and in partnership with many organizations and communities in the Front Range, Colorado, and to all corners of the world. Here are a few of the many ways your support will help us provide a hand-up to those in need:

- **Freedom Service Dogs** in Centennial helps veterans and rescues animals that are trained to help those suffering from PTSD and other debilitating illnesses.
- **Project Worthmore** in Aurora helps refugees and other new arrivals in our community.
- **Colorado Dream Foundation** helps children to stay in school until they graduate from high school and they provide services for children at risk of dropping out.
- In many resource poor countries **Rotary clubs** help communities to get safe drinking water and proper sanitation.
- Past two years. over \$92,000 was sent to Ukraine for injured civilians and soldiers and to help many nongovernmental organizations that needed first aid kits, food, water, clothes and other items needed by those displaced or injured by the war.
- Over \$15,000 was sent to Rotary clubs during the Turkey Earthquake setting up portable clinics to treat the victims and many other locations that suffered from the humanitarian crises.

These are just a few of the many ways we help locally and globally; please use the QR codes to learn more about Rotary and ask us about how to become a member.
